Subject: Benzo[a]pyrene for peer review: Submission of the HERO versions of the draft IRIS assessment (toxicological review and supplemental), draft charge to the reviewers, and note to reviewers
Attachments: Benzo[a]pyrene_external review draft charge to peer reviewers_9-25-14.PDF; Benzo[a]pyrene_external review draft IRIS Supplemental Info_HERO_9-25-14.PDF; Benzo[a]pyrene_external review draft IRIS Toxicological Review_HERO_9-25-14.PDF; Benzo[a]pyrene_NOTE TO REVIEWERS_9-25-14.pdf

Hi all,

It is my pleasure to transmit to the SAB staff office the draft IRIS assessment (toxicological review and supplemental information) and the draft charge for benzo[a]pyrene. Additionally, you will see that we have included a "note to reviewers" as a separate file. NCEA drafted this note to help the reviewers understand some of the history and novel aspects associated with this assessment as well as the status of the implementation of the NRC recommendations. We ask that this be provided as a separate file to the CAAC-Benzo[a]pyrene panel.

Please note that these attachments are the **HERO versions** (that are 508 compliant) that can be made available to the public. These are the same drafts posted on the benzo[a]pyrene external peer review webpages of the IRIS website

Ex. 6 Personal Privacy (PP)

We had some issues when PDF'ing the HERONet versions of the Tox Review and Supplemental, for example, BMD graphs shifted making it hard to decipher the text in the graphs. We will work on fixing that and I'll send the HERONet versions (that give full access to references) for the CAAC-Benzo[a]pyrene panel next week or so. I am assuming since you don't have the panel formed as of yet, that this is not an issue.

Let me know if you have any questions.

Thanks,
Samantha
